To support you even better in your business abroad and to make our business more transparent in conformance with PM's maxim "simpler and more successful" we are now delivering at uniform shipping costs to our business partners in all EU countries* without PM subsidiaries.

This is a clear improvement as you no longer need to inform yourself of the shipping costs for an individual order but, just like for orders within Germany, immediately know the shipping costs a business partner abroad will incur.

From April 15, 2010 shipping costs for all orders to EU countries from an invoice of €200 up will be just **2% of the goods's net value** (price without VAT).

The **fixed shipping costs** (sales min. 100P) **for Try-Out Orders and orders on Autoship** will be just €8.95 (incl. VAT).

Of course, we will also continue to deliver orders valued at under €200 – for these a minimum order surcharge of €10 will be incurred.

These rules immediately provide you will a clear summary of the shipping costs to be incurred and can easily be described to your new contacts abroad.

EU countries* Estonia, France, Greece, Ireland, Malta, Portugal, Rumania, Slovenia, Spain, Czech Republic, Hungary, United Kingdom and Cypress.

Excepting printing errors and possible price alterations
